Long Term Plans – Vision 2030

- To continue pursuing the vision to empower the less privileged through quality education.
- Contributing to the development of the nation, by aligning the activities of the institution to the larger aims of the nation.
- To accelerate the transfer of knowledge through advanced innovation and entrepreneurship ventures.
- To explore the possibility of earmarking a whole semester in every programme for Internship.
- To continue striving for excellence in every aspect of higher education.
- To institution of Excellence.
- To secure enhanced autonomy to become a degree awarding institution.
- To establish a Virtual University.
- To drastically reduce the first generation learners by implementing the vision of the college.
- To improve the facilities for life-long education.
- To support different sectors like farmers in rural areas by providing them technological solutions.
- To enhance the development of new knowledge by strengthening research.
- To increase the outreach activities towards the educational empowerment of the urban poor, and people from the adopted villages.
- To double the number of villages adopted by the college by increasing the number of extension clubs.
