Introduction

The establishment of The New College in 1951 marks an important milestone in the educational empowerment and renaissance of the Muslim minority community in Tamil Nadu. The college was founded to address the deficiency of higher education opportunities for the Muslims in Southern India. The Muslim Educational Association of Southern India (MEASI), the parent body of the college, commenced its educational endeavours in 1902 inspired by influential reformers within the community such as Sir Syed Ahmed Khan. The college started its operations in a colonial-era structure located within the ‘Association Gardens’ on 2 July 1951 after securing affiliation from the University of Madras. It was named after one of the constituent colleges of the University of Oxford in the United Kingdom, founded in 1379.

In its early years, the College exclusively provided Pre-University Courses. However, in 1956, it expanded its offerings to include Undergraduate programmes. These included a B.A. programme in History, Politics, and Economics, as well as a B.Sc. programme in Mathematics, Chemistry, and Zoology. The College then introduced its first postgraduate programme, M.A. in Arabic, in 1965. Presently, the College offers a wide range of programmes, including 29 Undergraduate, 15 Postgraduate, and 11 Ph.D. programmes. These programmes are conducted in two shifts and cater to approximately 7000 students. While the College was initially established to empower the Muslim community through education, it has since welcomed students from all communities, both nationally and internationally.

The college achieved Autonomous status in 2007. It has undergone four rounds of accreditation by the NAAC (National Assessment and Accreditation Council) and has received an A++ Grade (CGPA 3.61 out of 4) in the most recent (4th) cycle. The college actively participates in the NIRF ranking and is currently positioned in the 151 to 200 rank band. The Internal Quality Assurance Cell (IQAC) of the college plays a crucial role in preparing the institution for various assessments, rankings and accreditations. Being autonomous, the college regularly updates its curriculum to align with the local, regional, national, and international requirements, as well as the evolving employment opportunities for graduates worldwide.

The college actively involves its students in various curricular and co-curricular activities with the objective of making them well-rounded individuals and responsible citizens. The Social Service wings of the college like the NSS, NCC, Rotaract Club, Citizen Consumer Club, NEST, Red Ribbon Club, Youth Red Cross and Departmental Outreach clubs have been engaging in various social and developmental initiatives in the neighbourhood areas of the college and adopted villages. The college adopted five villages under the Unnat Bharat Abhiyan scheme. All the social service activities of the college are coordinated by the New College Social Service (NCSS) centre.

The Career Guidance and Placement Cell regularly organises employability skills training programmes and arranges campus recruitment drives for the outgoing students. A course on Employability Skills is offered to all the first year UG students with the objective of orienting them towards their career plans and to prepare them for campus placement in their final year. The Competitive Examination Cell of the college also provides training to aspiring students for various competitive examinations for job and higher studies in collaboration with different departments.

The facilities available in the campus also include a hostel with capacity of over 550 students. Besides providing modern amenities like spacious rooms, clean and hygienic bathrooms for the boarders, the new college hostel premises are beautified with lush green lawns and gardens. The other green initiatives in the hostel campus include a biogas plant, a grey water recycling plant, an organic vegetable garden, and a RO plant.

The New College library is one of the largest college libraries in the state with over 1.4 lakh books in different categories. The library is digitised with an Integrated Library Management System. In addition to general and subject related books, reference section, books and materials for competitive examinations, magazines, and scholarly journals, the library provides internet browsing facility and access to digital resources. The Book Bank facility available in the library allows financially backward students to borrow and keep up to six books for the entire semester.

The sports amenities available in the campus include a spacious playground with facilities for almost all popular games, and a Gymnasium for fitness training and practice. Sports meets are conducted by the college every year to identify and nurture talented students in sports and games. Besides, students of the college are encouraged to participate in various sports events conducted at University, State and National levels. A few of our students have also been attending international level competitions. Recently, the college has modernised its basketball court, badminton court and cricket nets. The college admits students under sports quota every year and provides them free education and free boarding and lodging.

In addition to preserving the green cover in the campus, the college has set up elaborate provisions for rainwater harvesting, solar electricity generation, and an effluent treatment plant. The flora in the campus is provided with labels containing scientific and vernacular names and QR codes for further details.

The herbal garden in the campus has rare species of herbals from across the country. The Innovation, Incubation and Entrepreneurship Centre (IIEC) of the college regularly conducts programmes to promote innovation, entrepreneurship, and IPR among the students. The college is a participating institution in the activities recommended by the Innovation Cell of the Ministry of Education, Government of India.

The management of the college is committed to upgrading the facilities and resources available in the campus taking into account the changing needs. The New College Alumni Association (NCAA) constantly supports the developmental activities of the college with the help of the illustrious alumni of the college. The Alumni Association office on the campus coordinates the Alumni Chapters in different places and organises various activities involving the alumni of the college.
